Objective

My name is Leul Samson. I am a fresh graduate from Injibara University BSc. in Software Engineering. I am highly motivated and hardworking individual with a strong interest in technology and software development.

Education

- **Injibara University | Injibara, Amhara Region** 2026
  BSc. In Software Engineering
  CGPA : 3.65 | Exit Exam : 86.25%
- **Sire Preparatory School | Sire, Oromia Region** 2021
  High School Diploma

Skills

- Communication & interpersonal skills
- Teamwork & collaboration
- Java, Javascript, Phyton, PHP, VB.NET
- Web Development: React, Next.js, Tailwind CSS, Node.js, Express.js, Rest Api
- Database Management: PostgreSQL, MySQL, Database Design, Database Server
- Tools: Git, Github, Jira, Postman, Redis
- Project coordination
- Continuous learning
- Debugging and Testing

Experience

- **Addis Ababa Innovation And Technology Development Bereau** 2025/01/20 - 2025/05/17
  Software Engineer Intern
  - Gathered requirements, analyzed problems, and contributed to practical system solutions.
  - Strengthened communication, teamwork, adaptability, and professional problem-solving skills through project-based work.

Projects

- **Hospital Management System**
  - Developed a digital system for managing hospital operations and appointments.
  - Worked across system design, database management, authentication, and user-facing features.
  - Applied problem-solving and requirement analysis to develop practical solutions.
- **Utility Damage Reporting System**
  - Developed a web and mobile solution for reporting water, electricity, and road utility damage.
  - Designed features around real-world user needs and efficient issue reporting.
  - Collaborated on planning, development, testing, and system improvement.

- **AI/ML Data Analysis Project**
  - Analyzed a large healthcare dataset and developed machine-learning models.
  - Applied data preprocessing, analysis, model evaluation, and problem-solving techniques.
- **Municipality Land Administration System**
  - Developed a desktop-based land administration system for managing property registration, ownership transfers, payments, documents, and reports.
  - Built using VB.NET, Guna UI2, and SQL Server.
